features of Chinese civilization were seen as having inhibited the emergence of modernity in China. In the last few decades of the twentieth century, a reaction set in, and the emphasis shifted toward emphasizing both the indigenous origins of Chinese civilization and the positive qualities of features that defined the civilization.

The Liangzhu culture (/ ' l j α: ŋ ' dʒ u: /; 3400–2250 BC) was the last Neolithic jade culture in the Yangtze River Delta of China. The culture was highly stratified, as jade, silk, ivory and lacquer artifacts were found exclusively in elite burials, while pottery was more commonly found in the burial plots of poorer individuals. This division of class indicates that the Liangzhu ...
