decades of research on democratization is that durable democracy is strongly correlated with economic development,<sup>17</sup> albeit, as Chong argues, there is some evidence of a “political Kuznets curve” in which the immediate effect of democracy is to exacerbate inequality, while the long-run effect is to diminish it.<sup>18</sup>

### Democracy, Good Governance, and Economic Development

This paper argues that the belief that there is a direct correlation between economic development and the emergence and durability of democracy is problematic. Simultaneous improvements in state capacity and institutions, accountability, representation, and governance are important factors in achieving economic growth with greater equity.
