Phrases that contain the word: focus

Ok, so in the last couple posts I've been throwing around terms like "easy to say" without giving a whole lot of explanation. And that's a pity, because the study of what words are "easy" and what words are "hard" is, in my opinion, one of the greatest sub-disciplines in linguistics: phonotactics.

What words are easy to say?

focus by two tangents drawn from a point), and (having given the focus and a double ordinate) he uses the focus and directrix to obtain any number of points on a parabola - the first instance on record of the practical use of the
